

About Us....

For Anyone

Plan2Performsports Ltd was established over 7 years ago, during which time we have moulded our original business model in order to meet the demands of a growing, and evolving customer/client portfolio.

Initially working with local clubs and schools to establish a footprint in the sports service industry, to now working with globally recognised teams, organisations and corporate partners.

Our aim has always been to be an intimate agency, which provides support across all aspects of sport, namely,

- Fashion and sports apparel, that provides garments for grass roots sports to professional elite athletes and corporate partners
- Rugby specific software for coaches , athletes and managers
- Nutritional Supplements and support
- Coach-Athlete education and development programmes
- Sports and academic scholarship service (USA focused)

As a small business with a big portfolio, we still provide one-on-one, personalised customer service, tailored to your individual or organisational needs.

With over 30 years of sports related experience, you can be assured of a unique working partnership.
